

World Water Day

22nd March 2024

Ways to save water in our lives

1 Turn the tap off while you are brushing your teeth

2. Instead of running the tap to get cold water to drink, fill a jug of water and put it in the fridge, cold water ready all day.

3. Have shorter showers, set a timer for 5 minutes

4. In the summer, use a watering can instead of a hose to water the plants.

5. Fully load the dishwasher before you turn it on.

Key messages for World Water Day 2024

- **Water can create peace or spark conflict.** When water is scarce or polluted, or when people struggle for access, tensions can rise. By cooperating on water, we can balance everyone's water needs and help stabilize the world.
- **Prosperity and peace rely on water.** As nations manage climate change, mass migration and political unrest, they must put water cooperation at the heart of their plans.
- **Water can lead us out of crisis.** We can foster harmony between communities and countries by uniting around the fair and sustainable use of water – from United Nations conventions at the international level, to actions at the local level.
